Fund B - Alternative Fixed Income

Fund Objective: Growth & Income

Strategy Overview

JUNE 30, 2025

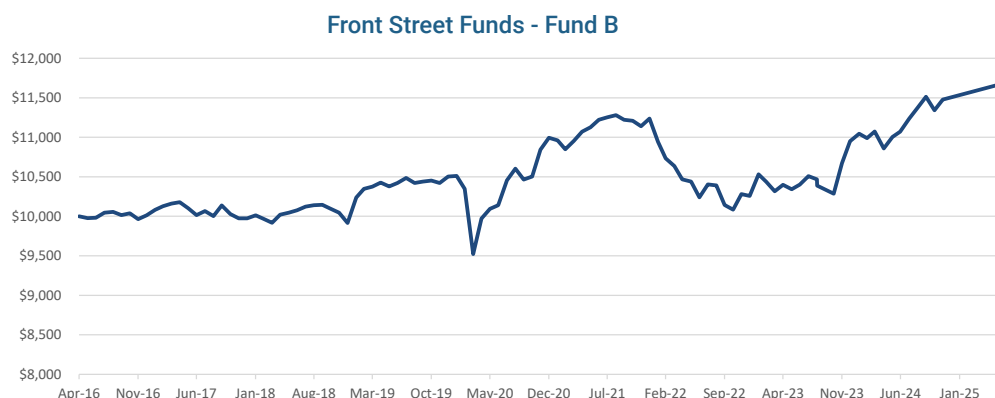

The Fixed Income Fund employs the Bramshill Income Performance Strategy which is a multi-asset class fixed income strategy that seeks to maximize total return across various asset classes. The strategy invests in a tactical portfolio of income-producing securities, including investment grade and high yield bonds, preferreds, municipal bonds, and U.S. Treasury securities. The portfolio is actively managed, incorporating sector allocations and tactical hedging during various interest rate and market environments. The strategy uses fundamental credit and relative value analysis, and focuses on securities with transparent pricing, actively-traded capital structures and liquidity. The strategy is unlevered, highly liquid, not benchmark dependent and seeks to maintain an investment grade portfolio.
